Professional Experience

Web Designer

Freelance // Bellevue, WA   2019 - present

- Built a web design business, primarily targeting the real estate industry.
- Developed complete frontend user experiences, including:
  - Modern website design and deployment, with parallax, CSS animations / transitions.
- Integrated backend components to help facilitate the needs of the business, such as:
  - External API integration, handling data and dynamically rendering photos / videos.
  - Data capture, building complex user database by driving online engagement.

General Manager

Bose // Orange, CA & Bellevue, WA   2013 - 2019

- Hired, managed, and developed employees to create a strong team culture, reinforce communication across channels, and deliver team goals.
- Recognized for excellence in leadership and relocated from Orange, CA to Bellevue, WA to reform an underperforming team.
  - Delivered the highest performing team in the US in under one year.
- Fostered an environment that encouraged productivity to drive the metric objectives of the business and increase sales.
  - Awarded locally and nationally for excellence in sales growth, year over year.
